| | <p>Why? CELEBRATE, CONNECT, CREATE. LEAF's presentation, sponsorship, and promotion of a wide variety of world music and arts at each festival and maintains programs LEAF in Schools & Streets and LEAF International that are an important part of many schools and community centers. It has become clear that it is no longer wise to rely solely on two single events per year as our only significant source of funding. The LEAF board and staff are working to find alternate sources of revenue to sustain us now and in the future, but we also need help from individuals, corporations and other organizations who believe that our work is important. As a result, we are asking for your help to maintain and expand our efforts of bringing LEAF and its programs to broader audiences as well as maintaining and expanding quality artistic and educational programs throughout WNC with the LEAF in Schools & Streets program and internationally. This is an opportunity to celebrate and give LEAFers (both new and old timers) a chance to connect and create a LEAF community beyond each festival.</p> | | |
